Guidelines

NEW GUIDELINES ON DIRECT SELLING

Based on the new guidelines shared by The Government of India, we are introducing new amendments that should be followed strictly across all networks.

1. Registration
2. Termination
3. Grievances
4. Return/Record Form
5. E-commerce
6. Proper Presentation of Facts
7. Food Products Guideline
8. Product Return Policy
9. Buy Back Policy

1. Registration

The new joining guidelines are -:

- Identity cards for all distributors is issued at the time of joining
- The identity card must be carried by the Distributors
- New distributors should come for CNT induction
- New/existing distributors have to update their KYC with the company:
(The documents must carry the same name as Registered in Vestige records)
 - Aadhaar Card/Voter Card/Latest Electricity Bill
 - Bank passbook/Signed Bank Statements
 - Pan Card
- Joining in the Vestige system is free, however, a distributor must do business of 350 BV or more within the first 30 days of registration for their ID to be valid
- Free order delivery is available for the first order of 350 BV or more

2. Termination

- According to the company's policy, anybody who has not placed any order for 2 consecutive years, will be given a notice period of 30 days to activate the ID
- We will send an SMS/mail for activation, in case someone doesn't place the order within the given time the ID will be TERMINATED

3. Grievances

New and improved customer care processes to handle distributor's grievances timely and efficiently. We have assigned different concerned heads to handle grievances related to different departments.

Online complaints will be handled by email **info@myvestige.com**

Departments	Heads
Centres	Centre Managers
Call Centre	Santosh Kumar
Info/Website in HO	Ram Dogra
Marketing Communication/ Voice/ Collaterals	Swapna Mondal
Head Office	Rajesh Negi
DLCP	Respective Centre
Sales	Alok Tandon

4. Return Form

- The Distributors and customers who want to return the products to the company are required to fill the details of the products which they want to return in the Customer Record/Return form
- These forms along with the products should be submitted to the Distributor/Company for processing as per company's policy
- The Products can be returned by the Customers/Distributors within 30 days of Purchase and they will get full refund/replacement. To know more about the policies in detail go to our website

<http://www.myvestige.com/>

5. E-commerce

Distributors are **not** allowed to sell Vestige products on any e-commerce platform. They have to take the consent of the company before doing so.

If not then the company will take strict actions against them.

6. Proper Presentation of Facts

- Distributor(s) shall not exaggerate or misrepresent benefits associated with Vestige business or its products and services
- The importance of hard work, consistency, and effort must be conveyed to new distributors
- The distributors should not make claims other than what the company mentioned in its literature. Violation will draw strict action against them by the Company
- Distributors must abide by CODE OF ETHICS/Policies and browse through Company website to keep themselves updated

7. Food Products Guideline

- As per the government regulations, if any individual distributor wants to sell the food products to others then they must obtain a proper FSSAI license and carry the same
- To apply for a FSSAI license all interested distributors are requested to contact their nearest Branch Offices of Vestige

8. Product Return Policy

In case of any dissatisfaction, manufacturing or packaging defect, customers/Distributors can return/exchange the product. The customers/Distributors must contact the Distributor/Company from whom they had purchased the same, within 30 days from the date of purchase. They have to provide a reason and return the said products along with the original customer order receipt copy/invoice. In such cases, it is the distributor's obligation to satisfy the customer's need for money refund or replacement of products.

The Distributor can then return these products, with original Invoice to the Company. The Company will replace these products free of cost or if the distributor does not want the same products, the Company will give a cash voucher of the same amount, which can be used by the Distributor within 30 days for purchasing products of their choice.

Documents Required

- Product Return Form
- Reason for return
- Copy of Invoice
- Products to be returned

8. Buy Back Policy

The Company provides a Buy Back Policy to the distributor who wishes to resign from his/her distributorship and return any Vestige products that are in good condition, useable, resaleable, restock-able, unopened, unaltered, and must have a shelf life of at least four months.

If the Distributor resigns within 30 days from the purchase of the products, Vestige shall provide a full refund for the products to the Distributor.

If the Distributor resigns from his/her distributorship after the expiry of 30 days from the date of purchase of products from Vestige, the amount refunded will be equal to distributor cost of the products being returned, less total bonus paid out by the Company on the original purchase, less 10% service charge.

The Buy Back policy is designed to impose upon the sponsor and the Company the obligation to ensure that the distributor is buying products wisely.

Important Collaterals

In order to successfully carry out their business operations and to explain the business properly to new prospects, distributors must carry the latest copies of the following collaterals :

IMMUNITY BOOST

HEALTH CARE

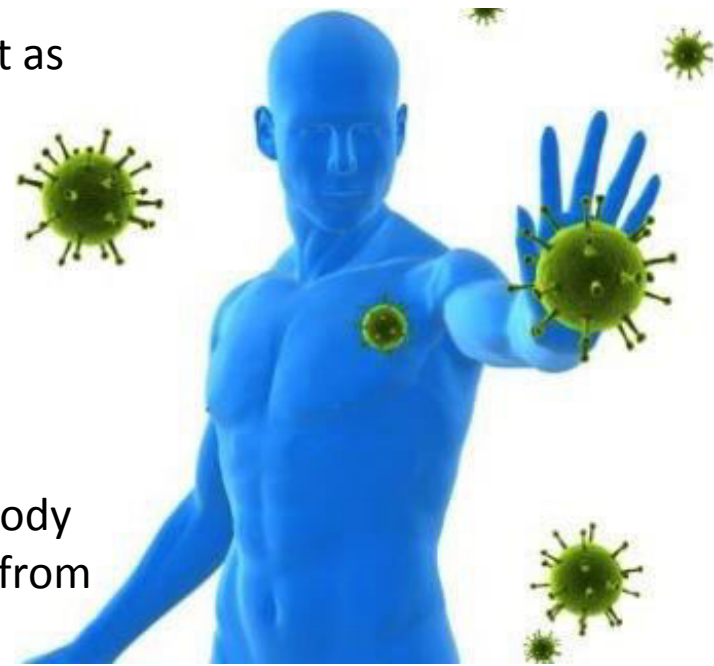

IMPORTANCE OF IMMUNITY

The job of the immune system is to defend the body against infectious organisms and other intruders. This occurs primarily through the actions of white blood cells.

Without an immune system, a human being would be just as exposed to the harmful influences of pathogens or other substances from the outside environment as to changes harmful to health happening inside of the body.

The main tasks of the body's immune system are:

- Neutralizing pathogens like bacteria, viruses, parasites or fungi that have entered the body, and removing them from the body
- Recognizing and neutralizing harmful substances from the environment
- Fighting against the body's own cells that have changed due to an illness, for example cancerous cells

HEALTH CARE

VESTIGE NONI

- Helps to strengthen the immune system as it contains a number of essential vitamins and minerals
- Xeronine in Noni enlarges the pores in the walls of the human cells to enable nutrients to enter the cells easily & increase the absorption of nutrients.
- People suffering from respiratory problems may benefit from its consumption
- Helps in case of various skin diseases
- Helps promote a healthy digestive system

HEALTH CARE

VESTIGE SPIRULINA

- Spirullina is considered as a Nutrient Power House because it has a unique blend of nutrients that no single plant source can provide.
- It has high protein concentration including all the eight essential amino acids in balanced proportion.
- It has high level of beta carotene, vitamin E, iron and is richest source of vitamin B12. It contains nucleic acids in addition to high level of micronutrients viz. Potassium, sodium and Zinc
- Due to high nutritional profile, this super food Spirullina has emerged as a great diet potential.
- It is widely used as a food supplement for all age groups

HEALTH CARE

VESTIGE COLOSTRUM

Bovine colostrum is the “early” milk produced by cows during the first several days post-parturition. This “early” milk has a nutrient profile and immunological composition that differs substantially from “mature” milk.

Colostrum is a natural product which is rich in macro- and micronutrients, and because of this, it is measured as a best natural food supplement.

Research shows that colostrum can help to:

- Increase strength and endurance
- Build lean muscle mass
- Burn body fat
- Boost immune function
- Shorten recovery time and accelerate healing of injuries

HEALTH CARE

VESTIGE ALOE VERA

- Aloe Vera is the oldest medicinal plant ever known and the most applied medicinal plant worldwide
- Aloe Vera Gel contains a large range of vitamins - even vitamin B12, Vitamin A, contains B-Group vitamins, Vitamin C, Vitamin E and folic acid
- Aloe Vera Gel contains important ingredients including 19 of the 20 amino acids needed by the human body and seven of the eight essential ones that just cannot be made
- Aloe Vera is a general tonic for the immune system, helping it to fight illness of all kinds
- It encourages the bowels to move and helps with elimination if a person is constipated. And if you have diarrhea, it will help slow it down.
- Aloe is very useful for destroying the micro-organisms in the last part of large intestine and have the capability to overcome the problem of constipation
- It also decreases blood sugar level in hyperglycemic patients.
- Aloe Vera initiates the synthesis of elastin as well as collagen. These proteins are essential for preventing the aging of the skin

HEALTH CARE

VESTIGE AMLA

- Amla is commonly used in Ayurveda as an antiscorbutic, a rejuvenating tonic, a carminative (helps to relieve bloating and gas), and stomachic
- Evidence suggests that Amla may help to boost immune response, presumably due to its vitamin C content.
- Amla has antiviral properties and also functions as an antibacterial and anti-fungal agent
- High content of vitamin C boosts the collagen cells production in the skin making the skin soft and shiny
- Increases hemoglobin and Red blood cell count as Vitamin C in the Amla fruit helps in the absorption of more iron from the food
- Helpful in relieving stress. Cools the body and mind, thereby promotes sleep and useful in insomnia

CARDIO CARE

HEALTH CARE

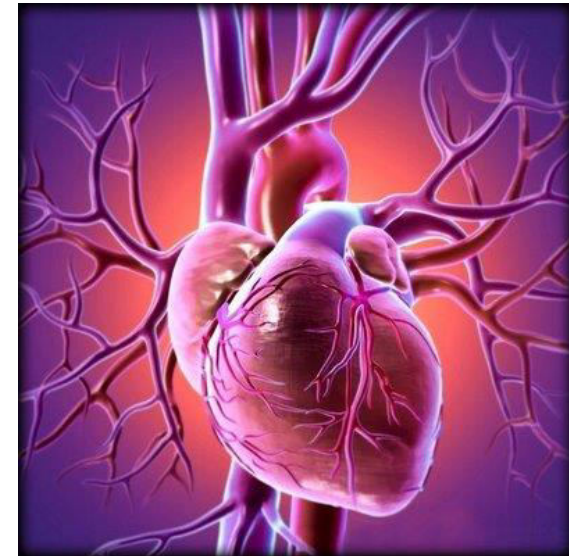

CARDIOVASCULAR HEALTH

(CARDIO + VASCULAR = HEART+BLOOD VESSELS)

The cardiovascular system consists of the heart, blood vessels, and blood. The circulatory system is a vast network of organs and vessels that is responsible for the flow of blood, nutrients, hormones, oxygen and other gases to and from cells.

The four major functions of the cardiovascular system are:

1. To transport nutrients, gases and waste products around the body
2. To protect the body from infection and blood loss
3. To help the body maintain a constant body temperature ('thermoregulation')
4. To help maintain fluid balance within the body

HEALTH CARE
