Why do we need to use a Body Butter?

- There are many areas in our body that remain extremely dry at all times – like elbows, knees, neck area, cuticles of hands and feet and others
- These areas need a moisture boost of rich moisturising agents like body butters
- Body Butter is a unique combination of rich moisturising butters and essential oils that deeply hydrates the skin for long time

The Product

Rich butter cream whipped to provide lighter and easier application, melts into the skin providing long lasting moisturisation without leaving greasy residue.

The Performance (Key ingredients)

- **Cocoa and Shea Butter:** Extracted from seeds of cocoa and shea nuts, these butters provide intense moisturisation to dry and chapped skin
- **Peach Fruit Extract:** A rich source of skin nourishing vitamins, minerals and fatty acids that provides anti-aging benefits to the skin. It helps to maintain elasticity and firmness of the skin

The Benefits

- It provides long-lasting intense moisture to dry skin, leaving the skin feeling beautifully silky, with a gorgeous glow
- The butters melt into the skin, penetrating deep to nourish and condition the skin
- Instantly provides smooth, supple, silky and super-soft skin
- It's sweet scent leaves the skin feeling fresh and energetic
